Guests will feast on delectable bites by **Baltimore's hottest culinary talent** and sip **stylish cocktails** and **craft brews**. With refreshing **sights and sounds**, relish in this epicurean adventure.

SATURDAY, JUNE 17, 2017 | 11:30AM

**WATERFRONT PROMENADE
FOUR SEASONS HOTEL BALTIMORE**

KATHARINE SCRIVENER | WHY SUPPORT CFF

“Moving into this decade is scary - 30-something sounds a heck of a lot closer to 41, the average life expectancy of someone with CF - than 20-something did. It’s terrifying to move into an age group where there are fewer of your peers. To watch your CF friends get sicker just because they’re getting older... We all still have a lot of life left to live, dreams we want to fulfill: I want to grow old with my husband, I want to watch my friends’ babies grow up, I want to read the 256 books I have sitting on my shelf.

Advances continue to be made in finding a cure, but your help is needed to help keep up the momentum. YOUR support can help all of us with CF live our dreams.

Thank you from the bottom of my heart for joining us in this fight!”

KATHARINE SCRIVENER, AGE 32
CF PATIENT + ADVOCATE

SPONSORSHIP LEVELS

PRESENTING EPICUREAN SPONSOR

The Cystic Fibrosis Foundation has unrestricted financial reserves of about 12 times its budgeted annual expenses, following a one-time royalty sale in 2014. These funds, along with the public's continuing support, are needed to help accelerate our efforts to pursue a lifelong cure for this fatal disease, develop lifesaving new therapies and help all people with CF live full, productive lives. To request a copy of our Strategic Plan, email info@cff.org or call 800 FIGHT-CF.

Important Note on Attendance at Foundation Events: To reduce the risk of getting and spreading germs at CF Foundation-sponsored events, we ask that everyone follow basic best practices by regularly cleaning your hands with soap and water or with an alcohol-based hand gel, covering your cough or sneeze with a tissue or your inner elbow and maintaining a safe 6-foot distance from anyone with a cold or infection.

Medical evidence shows that germs may spread among people with CF through direct and indirect contact as well as through droplets that travel short distances when a person coughs or sneezes. These germs can lead to worsening symptoms and speed decline in lung function. To further help reduce the risk of cross-infection, the Foundation's attendance policy recommends that all people with CF maintain a safe 6-foot distance from each other at all times while attending an outdoor Foundation-sponsored event.
